

The Show and Tell Guessing Game

Starting Friday, September 16, 2005, we will begin a new activity called The Show and Tell Guessing Game. All children are expected to participate.

We will only play this game on Friday.

Every week your child should bring in a small item beginning with the sound of the letter we are studying that week. This item should be hidden in a schoolbag or a paper bag so he/she can play a game with the class. Your child should be prepared to give 3 clues to the class and they will try to guess the hidden object based on your child's clues.

For example, we are studying "Tt" this week so your child might conceal a stuffed animal "turtle" in a bag. The 3 clues might be: "It has four legs. It has a shell. It moves slowly." The class should be able to get a picture in their heads of what it could be after hearing your child's three clues.

On Thursday night, when time allows, let your child walk around your house to gather possible items for our game. Help your child choose just **one** item to share with our class. It is more fun if everyone gets a turn to play!

Review the clues your child can give and encourage him/her to help think of them. You or your child may write or draw the clues on a piece of paper to help him/her remember them.

We hope this guessing game will be an enjoyable activity for all the children and we hope you will help and encourage your child to participate.
